ONLINE SAFETY
AWARENESS
AT BYRON

At Byron, we take online safety extremely seriously. As educators and parents it is our duty to educate ourselves and our children to learn how to be responsible, caring, and informed members of the online community. It would be unfair to assume that because children are 'digital natives' they always know how to use technology appropriately.

This is where we as educators and parents can help children to become good digital citizens. This is why we have invited the highly respected and experienced Safeguarding Alliance to deliver their Online Safety Awareness Programme to our entire school community - students, parents, and staff - at the beginning of the school year.
