

Year 1 Geography

Areas of Learning:

- Planet Earth
- The country we live in: Greece; local landmarks
- Local environment (around our school)
- The United Kingdom: local landmarks
- Our country of origin
- Celebrating cultures

Approaches to learning

- Name, locate and identify characteristics of our country of origin, the country we live in now (Greece) and United Kingdom.
- Understand geographical similarities and differences through studying the human and physical geography of our local area compared to other places.
- Identify seasonal and daily weather patterns in our country, use basic geographical vocabulary.
- Use world maps, atlases, globes and ICT resources to identify our country.

Examples of learning

Pupils are exposed to a variety of materials related to Greece and other countries.
